## WORK EXPERIENCE

**Product Management Intern** – Charles River Development (FinTech); Dallas, TX(Remote) May 2022 – August 2022

- Developed prototypes and PRD for Operations team managing \$50M in client financials and benchmark data, understanding complex workflows. Created application's data architecture for efficient data handling and analysis.
- Improved data loading speed by segregating and filtering data in Excel based on stock exchange status and removing inactive exchanges using SQL queries, resulting in a 25% faster process.
- Implemented Looker at Charles River Development (CRD) to visualize benchmark data, facilitating investment managers in effectively managing investments worth \$36 trillion.

**Associate Product Manager, APM Intern** – Renegade Insurance (InsurTech); Mumbai (Remote) July 2020 – July 2021

- Spearheaded a team of 6 to develop a software product that drove insurance leads from the point of sale of home loan origination and generated \$100,000 in premium sales within 4 months.
- Collaborated with the CRM team to implement a customized API integration, empowering insurance agents to boost their commissions by at least 20% through improved lead management and sales tracking.
- Owned the complete product lifecycle from product vision to launch, including user research, GTM strategy, road mapping, writing user stories and acceptance criteria, backlog prioritization, prototyping, and testing.
- Conducted over 20 user interviews to gain insights into customer pain points and implemented enhancements to ensure an excellent user experience, which led to an increase in users by 15%.
- Implemented agile ideation to reduce sprint gaps and cut feature release time by 40%.

**Business Analyst Intern** – tag8; Mumbai July 2019 – February 2020

- Researched competitors and wrote a product requirement document for feedback software that was successfully implemented across 12,000+ ATMs in India for a leading bank, resulting in a 25% increase in customer satisfaction.
- Developed and maintained Power BI dashboards, delivering real-time actionable insights to bank management, enabling data-driven decision-making, and improving operational efficiency.

## PROJECTS

[Product Portfolio Website](#) February 2023 – April 2023

- Developed and launched a professional product portfolio website using HTML and JavaScript, hosted on GitHub, showcasing my projects, skills, and achievements in a visually appealing and interactive manner.

[UI Redesign for Quora and E-learning](#) April 2022

- Improved Quora UI by removing redundant information and simplifying the remaining content
- Streamlined the eLearning platform's UI by creating subject-specific boxes with overall grades, reducing homepage information, and adding an exam-related updates tab.
